

Letter of Recommendation

November 1, 2023

My name is Janet Scheiner and I am proud to offer my recommendation of Alexa Stein to whom I have personally known for 11 years.

Alexa has taught and assisted in my classroom. I have experienced an individual who is driven, organized, and able to develop relationships with my students that truly inspired them.

Alexa has developed her skills as a teacher by taking on responsibility and always assisting in my classroom. She has had a wonderful rapport with people of all ages in my school, especially the children. She has wonderful writing skills and loves to help my students with their writing. She also incorporated excellent reading lessons to my students, including differentiating small group instruction.

Alexa accomplishes any given task with initiative and a positive attitude.

I highly recommend Alexa Stein for a teacher position at your school. She will certainly be an asset to the students in your school district and community.

Please do not hesitate to contact me if you require any further information.

Best regards,

Janet Scheiner
